WALKER FIELD

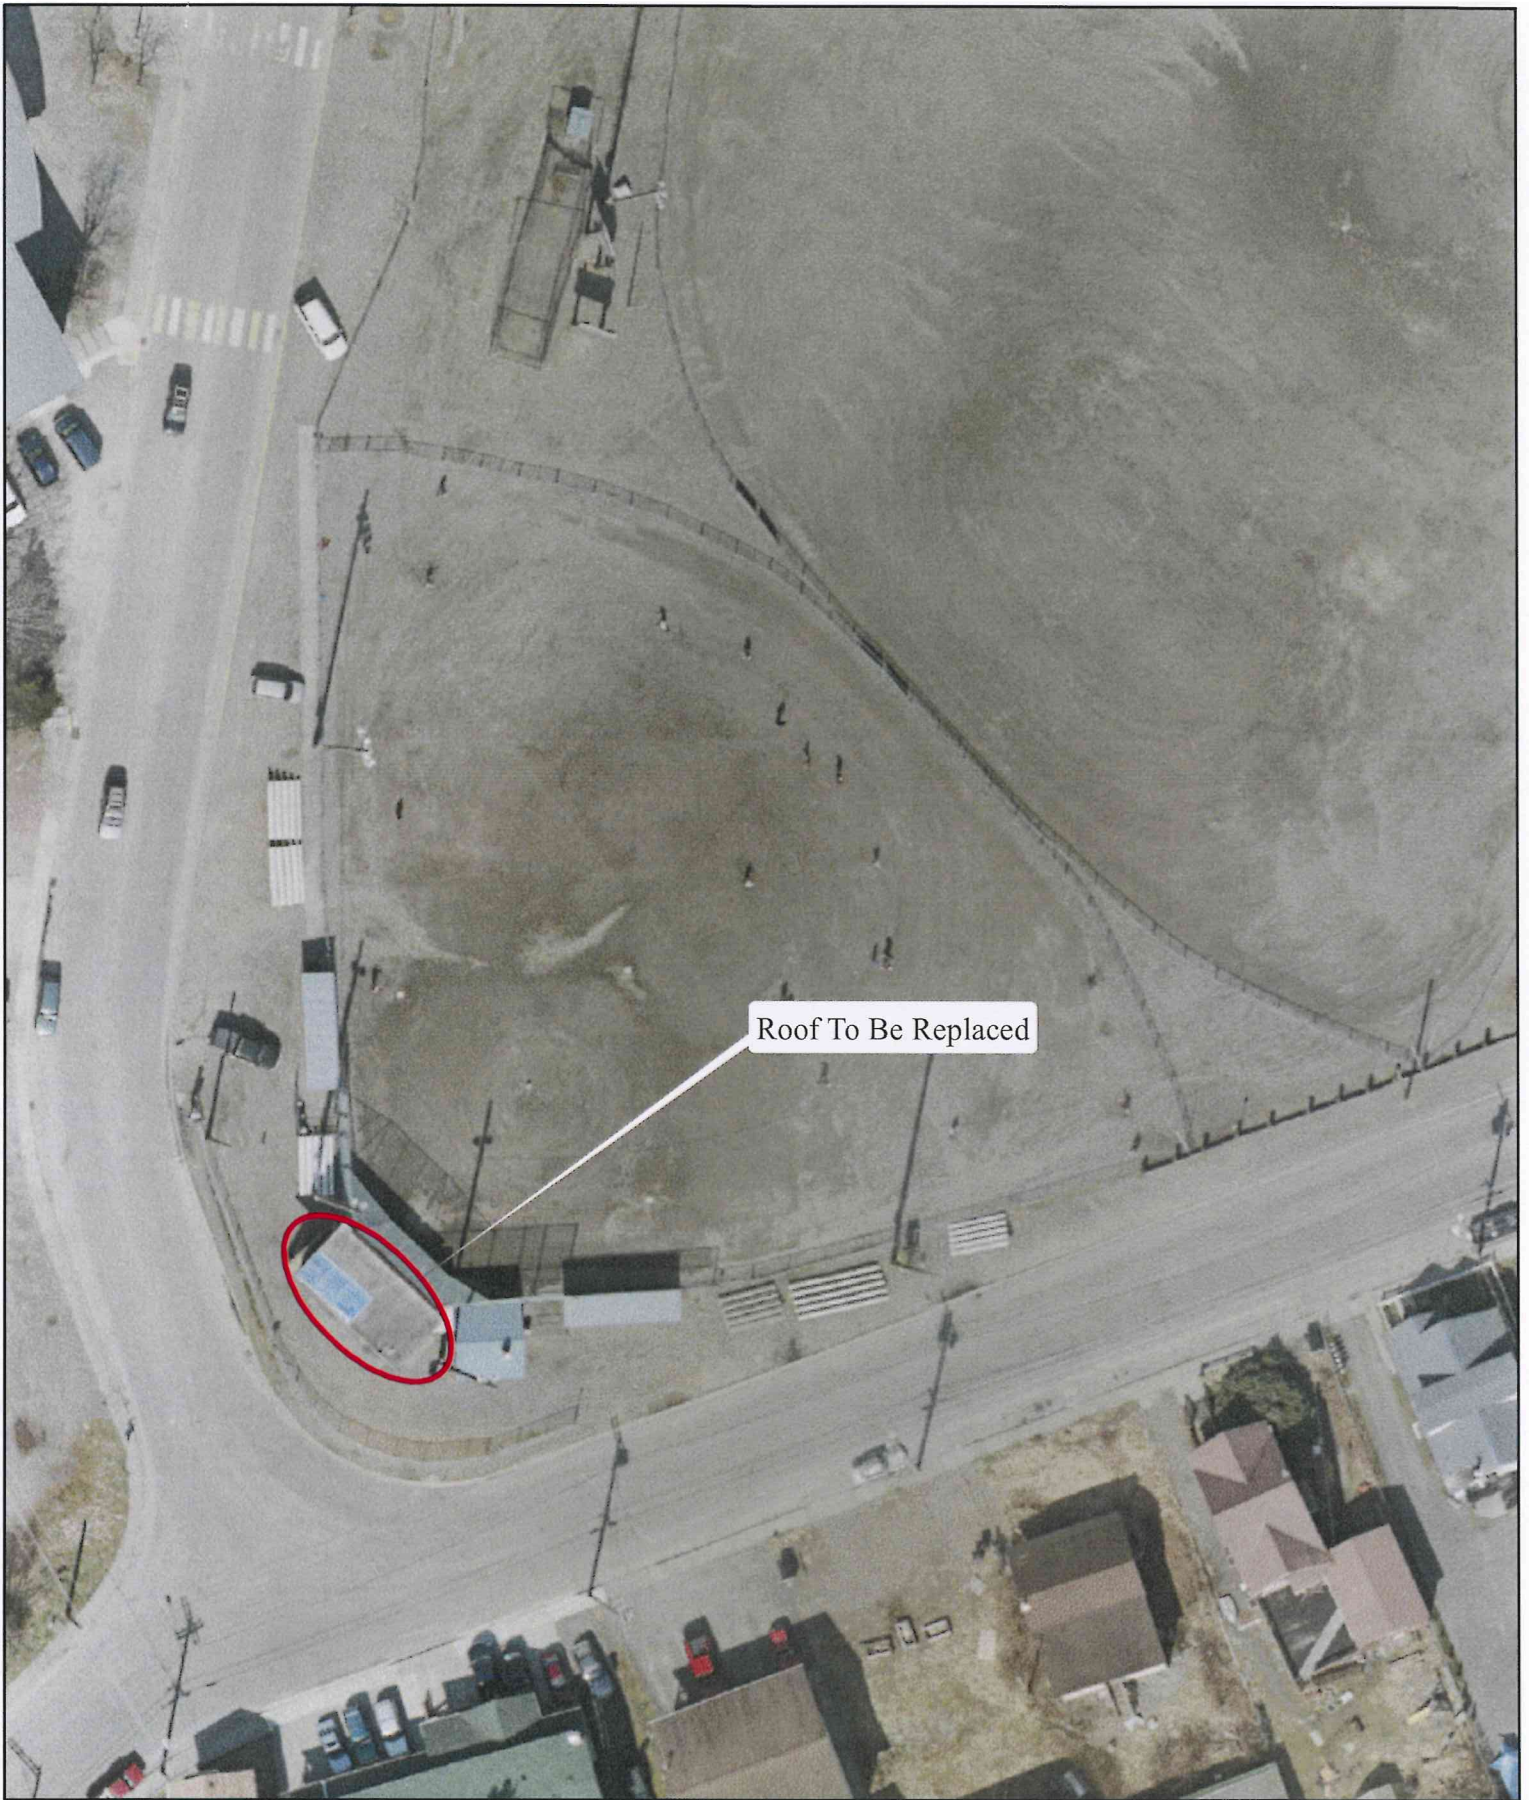

Walker Field Improvement Projects

- Replacement of South Field grandstand roof.
- Replacement of South Field announcer's booth.
- Drainage of North Field grandstand footings.
- All facility general maintenance (painting, fence repairs, handrail repairs, walkway repairs).

The South Field grandstand roof replacement will take place at the end of this year's baseball season. Chanel Builders has been hired to perform this work and is scheduled to start in mid-July.

The South Field announcer's booth replacement will be completed this season and is the next project to go out for proposals.

Water drainage issues along the Northwest end the field are being addressed by Public Works staff. This work will alleviate the flooded areas around announcer's booth. The drainage issues behind and under the grandstand are under review by staff.
