---

KGB Athletic Fields Phase III Reopening

May 28, 2020

Per the Phase III/IV Details Guidance and Advisory Document Phase III-IV Attachment U issued by the State of Alaska, and per guidelines issued by the CDC, please be aware of the following guidance for participants, attendants, and spectators at the Borough's athletic fields:

## **General Responsibilities:**

- **If you are feeling sick, please stay home.**
- Social distancing of at least 6 feet is encouraged for all non-family members
- Cloth face coverings are generally encouraged where social distancing cannot be accomplished
- Maintain good handwashing practices: use soap and water for no less than 20 seconds, and use hand sanitizer frequently.

## **Organization Responsibilities:**

- **Participants are required to inform their organization if they become sick within seven days of participation so that other participants can be informed of their own responsibility to monitor for symptoms and practice recommended social distancing measures.** Organizations are to inform participants in any policies to encourage participants to stay home.
- Cloth face coverings are encouraged for participants who are in direct contact with the public (e.g. concessions, umpires, coaches)
- Employees, officials/referees, coaches and support staff may not provide services to the public if they exhibit symptoms, or within 72 hours of exhibiting a fever.
- Events anticipated to exceed 500 participants where 6 feet distancing cannot be maintained at all times with facial coverings shall require consultation with the Division of Public Health.
- Organizations using concessions stands shall routinely clean and disinfect surfaces and objects that are frequently touched, with an EPA-approved disinfectant.
- KGB staff will provide daily restroom disinfection: Organizations are encouraged to clean on a more frequent schedule – e.g. following each mid-day game or practice.
- Employees, officials/referees, coaches and support staff will help encourage all hygiene practices.
- Any facility in which an employee, official/referee, coach, support staff or participant identified as being COVID-19 positive by testing shall be cleaned and disinfected as soon after confirmation as practical. Alternately, organizations shall suspend usage for a period of 72 hours for deactivation followed by comprehensive disinfection of all common surfaces.
